

## LIST OF PERFORMED STUDIES: BIOAVAILABILITY & BIOEQUIVALENCE

- |                              |                   |                  |
|------------------------------|-------------------|------------------|
| 1. Acebutolol                | 24. Fluoxetine    | 47. Nefopam      |
| 2. Alprazolam                | 25. Flutamide     | 48. Olanzapine   |
| 3. Ambroxol                  | 26. Fluvoxamine   | 49. Ondansetron  |
| 4. Amlodipine                | 27. Gemcitabine   | 50. Paracetamol  |
| 5. Anastrozole               | (analogue)        | 51. Paroxetine   |
| 6. Aripiprazole              | 28. Genisteine    | 52. Pefloxacin   |
| 7. Azithromycin              | 29. Gliclazide    | 53. Pioglitazone |
| 8. Bisoprolol                | 30. Glipizide     | 54. Piroxicam    |
| 9. Caffeine                  | 31. Ibuprofen     | 55. Quinapril    |
| 10. Captopril                | 32. Indobufen     | 56. Ranitidine   |
| 11. Carvedilol               | 33. Itraconazole  | 57. Salbutamol   |
| 12. Cefuroxime               | 34. Ketoconazole  | 58. Selegiline   |
| 13. Ciprofloxacin            | 35. Ketoprofen    | 59. Sertraline   |
| 14. Cisapride                | 36. Letrozole     | 60. Simvastatin  |
| 15. Clarithromycin           | 37. Loratadine    | 61. Sulpiride    |
| 16. Clopidogrel<br>(SR26334) | 38. Megestrol     | 62. Tamoxifen    |
| 17. Clozapine                | 39. Meloxicam     | 63. Tamsulosin   |
| 18. Diazepam                 | 40. Mesalazine    | 64. Triamterene  |
| 19. Domperidone              | 41. Mianserin     | 65. Troxerutin   |
| 20. Etilefrine               | 42. Miconazole    | 66. Verapamil    |
| 21. Exemestane               | 43. Midazolam     | 67. Zaleplon     |
| 22. Fenofibrate              | 44. Moclobemide   | 68. Zolpidem     |
| 23. Finasteride              | 45. Nabumeton     |                  |
|                              | 46. Naftidrofuryl |                  |
